

**ZACK CLARK 310-913-5743 zack@zackllc.com**

**PRODUCER**

**EXPERIENCE:**

**6/2016 – 12/2016 Sr. Producer, Beachbody LLC**

As a Sr. Producer for Beachbody's on demand video platform campaign supporting P90-X and their many other fitness and lifestyle brands. I worked on campaigns utilizing AICP companies, DRTV production companies, as well as smaller projects using only Beachbody's in-house agency's production personnel and contractors. All post was performed in house except the final mix. It was a great opportunity to work on innovative short form projects from conception to delivery for YouTube and Facebook.

**1994 – Present, Freelance Line Producer/UPM, Various Companies**

Over 20 years experience as a freelance line producer, production manager, location scout/manager on regional, national and worldwide TV commercial campaigns, short and long form DRTV, some feature films, live productions, short films, documentaries and social media content. Extensive experience overseeing all aspects of the production process, including scheduling, budgeting and actualizing expenditures; securing and managing all major production elements, including all human resources and equipment; providing financial oversight, accounting, payroll, cash management; crew and vendor negotiations; securing celebrity talent; felicitating elaborate stunts; supervising post-production and finishing process; arraigning global travel, shipping, and managing local production services. I've scouted and shot on location in many countries and most of the United States, often managing multiple productions in different locations simultaneously. More than anything I like the satisfaction of working with creatives and artists to achieve their vision and expectations.
